today in brief

US plane crashes in Phnom Penh

PHNOM PENH (UPI) — A U.S. A-7 Corsair jet fighterbomber crashed into a crowded military barracks at the Phnom Penh airport tonight as Cambodian troops and their families were eating their evening meal. It burst into flames and destroyed an area half a city block square.

Heavy casualties were feared although the pilot bailed out and lived. At least two persons were known dead but it was believed the casualty toll on the ground would go higher.

Allen Funt aide guilty

NEW YORK (UPI) — An accountant for Allen Funt, producer of the long running television show, "Candid Camera," pleaded guilty in Manhattan Superior Court Thursday to the theft of more than \$1 million from Funt.

Seymour Goldes, 42, of Woodmere, N.Y., pleaded guilty to two counts of grand larceny in a Manhattan court. Sentencing was set for Sept. 10. Goldes admitted to taking \$1,205,036 from Funt's bank accounts.

Belfast bombs explode

BELFAST (UPI) — Bomb blasts damaged two downtown Belfast automobile showrooms today in the first bombing strikes in the heart of the capital in a month.

Neither caused casualties, police said.

Anonymous telephone callers gave police 30-minute warnings that bombs were planted in the two auto dealerships off City Hall Square. Police evacuated most of the area before the explosions.

Krogh files Ellsberg affidavit

WASHINGTON (UPI) — Former White House aide Egil "Bud" Krogh, who is on leave from his post as Undersecretary of Transportation, plans to file a sworn legal affidavit detailing events connected with the burglary of Daniel Ellsberg's psychiatrist's office, according to his attorney.

Krogh was linked to the Sept. 7, 1971 break-in by his former boss, ex-White House domestic affairs adviser John D. Ehrlichman.

Wounded Knee limps along

PINE RIDGE, S.D. (UPI) — Negotiations at Wounded Knee limped along today in what one federal negotiator described as a "tremendous atmosphere of distrust."

Richard Hellstern, deputy assistant attorney general, said after a "non-productive" session Thursday that no time was set for a meeting today but that a session was expected.

Lindsay visits USSR

MOSCOW (UPI) — New York Mayor John V. Lindsay, who arrived Thursday for a weeklong official visit to the Soviet Union, said he would "privately" raise the question of Jewish emigration.

Lindsay and his wife were welcomed at Sheremetyevo airport by Moscow Mayor Vladimir Prohlyov.

Asked by newsmen if he planned to bring up the issue of emigration problems faced by Soviet Jews when he meets Soviet officials, Lindsay replied: "Yes, privately."

Liddy maintains silence

WASHINGTON (UPI) — Watergate conspirator G. Gordon Liddy is still maintaining his silence about the bugging case and is "going up the river alone," according to one of his attorneys. Thomas Kennedy said Thursday that Liddy has once again refused to follow his advice and tell a grand jury about the plot. "Mr. Liddy's position remains unchanged—he is not implicating anybody," Kennedy said. "He is, in fact, have-and-before, going up the river alone."

Nixon aide destroys records

NEW YORK (UPI) — The New York Times said today that Herbert W. Kalmbach, formerly President Nixon's personal attorney, destroyed all his campaign finance records before the federal campaign finance law went into effect April 7, 1973.

Quoting a close associate of Kalmbach's, the Times said Kalmbach told government investigators that he destroyed the records to provide confidentiality for the contributors.

Valley food prices drop

By JOCELYN CLOWARD
Times-News writer

TWIN FALLS — Grocery prices dropped slightly during April in Twin Falls, leaving them 5.2 per cent higher than at the first of the year.

The total drop for 20 grocery

items surveyed by the Times-News each month was only .4 per cent. However survey meat items dropped in price by three per cent during April and produce dropped two per cent.

Staples checked at the five grocery stores included each month in the price survey dropped only .12 per cent.

A basketful of groceries that would have cost the consumer \$10.00 in February of this year and \$10.62 in March, cost \$10.55 at the end of April.

The average food price decline in Twin Falls stores ran concurrently with government reports that wholesale prices for meat and most other foods fell nationally during April.

The drop in prices came

after a grocery price increase in March which was the largest such increase recorded in the past year and a half.

Meat prices, subjected

during the month to a nationwide boycott, and to federal price controls, showed

on the survey items an average drop of three per cent. The

same meat during the month of March had risen 14.4 per cent.

Coffee increased in price during the month by one per cent. Coffee prices in March had increased 1.5 per cent. A

two pound can of coffee costing \$1.97 in February cost \$2 in March and \$2.02 in April.

Of the five Twin Falls grocery stores surveyed, keeping their positions on the

neighborhood grocery stores, three reflected the average drop in prices on the 20 items, while two showed increased prices.

One showed lower prices for April by 5.2 per cent, a second at 3.5 per cent and a third at 0.5 per cent. However, two of the stores had increased prices on

some meat during the month of March.

Meat prices increased 14.4 per cent and 1.9 per cent.

Coffee increased in price during the month by one per cent. Coffee prices in March had increased 1.5 per cent. A

two pound can of coffee costing \$1.97 in February cost \$2 in March and \$2.02 in April.

Of the five Twin Falls grocery stores surveyed, keeping their positions on the

neighborhood grocery stores, three reflected the average drop in prices on the 20 items, while two showed increased prices.

Haig to head Nixon staff

WASHINGTON (UPI) — President Nixon picked Gen. Alexander M. Haig Jr. today to serve as temporary chief of the White House staff while Senate investigators questioned Nixon's two top former aides about the Watergate bugging case and his cover up of it. Word of the President's choice of Haig, Army vice chief of staff, for the critical post came from Florida, where Nixon is spending the weekend, while H. R. Haldeman and John D. Ehrlichman were submitting to a second day of testimony before separate investigators.

Haig has been one of Nixon's favorite troubleshooters. He frequently undertakes missions for the President to assess the military and political situation in Indochina.

In selecting Haig as staff chief, Nixon followed the example of President Dwight D. Eisenhower, who also picked an Army man to head the White House staff in the wake of the resignation of Sherman Adams, who was implicated in a vicious cost scandal.

Middle East situation "tense"

BEIRUT (UPI) — A ceasefire today ended two days of bloody fighting between the Lebanese army and Palestinian guerrillas aided by tank-led comrades from Syria. But the situation remained tense and there was a threat of another Middle East conflagration.

Egyptian President Anwar Sadat cautioned Syria against intervening as it did in a similar flareup in 1969 and diplomats in London said any significant influx of Palestinian guerrillas into Lebanon from Syria could provoke armed Israeli reaction with unforeseeable consequences.

Israeli leaders were silent on the new crisis but the Tel Aviv newspaper Yediot Ahronot said Israel was prepared to warn

Syria against intervening on the side of the Arab guerrillas. (The authoritative newspaper said that if regular forces from Syria have penetrated into Lebanon and are likely to challenge the military balance and endanger Lebanon's independence Israel will severely warn Damascus that it cannot sit with folded arms.)

Sources close to the government said Lebanon is renegotiating its agreement with Palestinian guerrillas governing their rights in Lebanon in the wake of the army-guerrilla clashes. The new agreement would replace the "Cairo Agreement" signed in November, 1969, after similar clashes brought the country close to civil war and into a direct confrontation with Syria.

US cracks whip on Valley sugar plants

By DAVID HORSMAN
Times-News writer

TWIN FALLS — Three sugar plants, two from Magic Valley, will be the first Idaho industries required to meet federal pollution permit standards, a federal official said Thursday.

Amalgamated Sugar Co. plants in Twin Falls and Paul, and the U and I Sugar refinery in Idaho Falls will be the first state industries required to obtain federal permits for waste discharge, according to Ron Culver, Boise field consultant for the US Environmental Protection Agency (EPA).

But neither federal nor state officials would disclose what specific pollution-control requirements would be set for the three plants. He said the EPA is currently drafting final standards for the industries.

No said-the-standards-would-be-announced-and-subject-to

public hearing prior to implementation.

Culver said state and federal environmental officials have worked together in drafting pollution limitations for the sugar plants. Their joint proposals have been forwarded to the

regional EPA office in Seattle, Wash., Culver said, where they will be reviewed and approved before public announcement and comment.

Acknowledging the three sugar plants were singled out to meet the new pollution standards, (Seattle) EPA official said they represented a "major industry" concerning which "background work on (waste) limits has been pretty highly developed."

The Amalgamated plant in Twin Falls was recently targeted by a high-ranking EPA official for violating "any number of (pollution) standards" with its industrial outflow into Rock Creek. Rock Creek is "very badly polluted," he said.

Culver was telephoning in Twin Falls Thursday to reserve a meeting place for a public hearing on proposed limitations under the industrial waste discharge permits.

He said public comment concerning limitations on all three sugar plants would be taken at the meeting.

Lloyd Head, chief of the EPA permit branch in Seattle, said a public notice of intent outlining permit proposals will be announced "about the week of May 11." He said notice will

include "present discharge limits and proposed limits that must be met within a time frame."

About 30 days after the notice, "in late June or early July," the public hearing will be held in Twin Falls, according to Ried.

The state plans to apply for authority to administer the federal pollution control programs in the State Environmental Protection Division. He said his office has "held back" on issuance of state permits "for about one and one-half years" while the federal permit system was being organized.

The state has issued about 40 permits in the past to several cities and small industries basically in the Boise Valley area," Stokes said. He said no permits were issued to sugar companies.

"But when the federal Water Quality Act amendment was passed in October, 1972, we curtailed our permits to allow implementation of the new standards," he added.

If its request to administer the federal permits is denied, the state will have to decide whether or not to set up a (separate) state permit system, according to Stokes.

Ready for play

Church introduces water planning bill

WASHINGTON (UPI) — Legislation to extend the federal program of assistance to individual states to finance water resources planning was introduced Thursday by Sen. Frank Church, D-Idaho.

The present authority for such assistance is scheduled to terminate during fiscal year 1976.

Church said he introduced the legislation at this time because many states operate on two-year budget cycles and they must soon have assurances that the federal

funds will continue to be available.

Church, who is chairman of the Senate Subcommittee of Water and Power Resources, said that Congress must consider the future of the program. Idaho has received \$453,780 in federal funds for water resource planning since the first year of operation, fiscal 1967.

Church said the program "has greatly improved our ability to meet the increasing demands upon the nation's limited water resources."

Idaho taxes may increase next year

BOISE (UPI) — Increased spending by the state next year may lead eventually to higher taxes in Idaho, a spokesman for the Associated Taxpayers of Idaho said today.

Mark Yost, executive manager of the private tax study organization, said the possible increase becomes apparent in a comparison of state appropriations for fiscal 1972-73 and 1973-74.

"Total appropriations for the next fiscal year ending July 1, 1974, amount to \$395,515,568 of which \$159,080,182 is from the state general fund and \$236,435,386 is from the special funds including federal aid, dedicated taxes and other sources," Yost said.

He said the total general fund appropriation represents a 15-per-cent increase from current negotiations.

The last legislature enacted legislation to provide for the reimbursement of the endowment funds with \$15 million over a 40-year period.

The bill was signed into law by Gov. Cecil D. Andrus and the transaction was approved by

Park files suit against Zweifel

MURPHY (UPI) — Suit was filed in Third District Court Thursday by Idaho Atty. Gen. W. Anthony Park against mining claim speculator Merlin I. Zweifel, Oklahoma.

The suit alleges that Zweifel has filed hundreds of mining claims in Owyhee and Elmore counties without complying with state and federal laws.

Zweifel has been temporarily restrained and enjoined from filing any additional claims in Idaho without substantial evidence that he has complied with the appropriate laws, pending the outcome of the suit.

A show cause hearing will be held in Third District Court May 11.

The complaint also asks the court to review the validity of the claims already filed by the mining speculator.

Park said all 44 of the state's county clerks named as defendants by way of a friendly suit to insure that Zweifel would not file any additional claims. The clerks also were enjoined from recording any claims which may be filed by Zweifel or any of his associates in which Zweifel's name appears as locator or co-locator.

Officials in the attorney general's office said that some 1,500 claims have allegedly been filed

by Zweifel in Owyhee County and there are some 240,000 acres involved.

Park indicated that when he learned of the Oklahoman's intrusion into Idaho, he directed members of his staff, in conjunction with Owyhee County Pros. Robert Tuncliff, to determine the scope of his activities and whether they were similar to those in neighboring states.

According to the Nevada attorney general's office, Zweifel has been found guilty in Nevada of 16 felonies counts for the crime of unlawfully offering a false instrument to be recorded.

Park indicated that Zweifel is out on bail pending the outcome of an appeal which was recently argued before the supreme court of Nevada.

"It thus appears," Park said, "that Zweifel thought he could gain valid mining claims in Idaho by simply placing stakes along remote country roads and not comply with Idaho law which requires substantial posts or monuments to each corner or angle."

The attorney general's investigators determined that the notices of location on file in Owyhee County stated that 95 of the alleged claims were supposedly discarded and staked on one day in mid-March.

Area man fined

TWIN FALLS — A young Jerome man has been fined \$100 and ordered to serve a one-day jail sentence after pleading guilty to shoplifting a package of cigarettes.

Judge Reed P. Maughan, Twin Falls Magistrate Court, sentenced Greg A. Hill, 19, Wednesday afternoon after he entered a plea of guilty to taking the 39-cent item from a Safeway store.

In pronouncing the sentence, Judge Maughan said merchants are complaining of the increasing number of thefts of merchandise and the heavy losses they suffer as a result.

Judge Maughan said Hill will be given an opportunity to serve his sentence on a weekend or after work to continue his job. He will also be given an opportunity to work out the fine, the judge said.

Merchants in Twin Falls have been employing various methods of combatting shoplifting losses. One firm offered a "bounty" on a per-head basis to all employees helping detect and apprehend shoplifters.

Others have hired special off-duty police officers or other employees to help detect and arrest shoplifters.

Jack Muldoon, local merchant, said his store maintains a continuous watch for shoplifters and most other stores in the drug and grocery lines do the same. He said the merchants are also working for a new form of legislation which will help the store owner recover some of his loss.

Drawing slated

BLOOD DRAWINGS are vital to persons such as Merrill Call, left, who required 10 pints of blood during open heart surgery several months ago. Here he discusses the Monday blood drawing with blood procurement chairman Burton Huish of the Twin Falls Red Cross Chapter.

Support urged for TF blood drawing Monday

TWIN FALLS — The Monday blood drawing has been termed a "must" for all eligible donors.

BLOOD PROCUREMENT chairman Burton Huish said the Twin Falls quota has been missed in the past two drawings and must be met this time as more blood is being used here than is being drawn.

This month's drawing will be from 1 to 6 p.m. in the Catholic

Parish Hall on Seventh Avenue East. The American Legion Hall is under reconstruction and will not be available for blood drawings until work is completed.

David Nelson, assisting with the drawing, said there has been some question as to eligibility. If there is any doubt, he said, the prospective donor should ask his or her physician. Checks of donors are made at the time of giving the blood and those not meeting specific requirements will be rejected.

Nelson said persons not able to meet the requirements could save their time by not attending.

Ineligibility, he said, involves a weight of under 110 pounds, at least eight weeks since the previous donation, and not more than five donations per year; any history of hepatitis, or a history of heart disease also disqualifies the individual.

Persons between the ages of 18 and 65, up to their 66th birthday, may donate blood. Donors are accepted 24 hours after immunization shots except smallpox and are acceptable two weeks after the shot disappears or after an immune reaction.

Persons with diabetes, if requiring medication, are not accepted and pregnancy and six months after delivery are also unacceptable conditions. Donors who have undergone surgery or serious injury within six months, those with acute allergic symptoms, or those with tooth extractions

or three pints at that time. The other seven pints were replaced through drawings in Twin Falls.

Huish said Jaycees will again offer an open challenge to other organizations as to the largest number of pints in their membership.

Quota for the Monday drawing is 150 pints and on Tuesday a second drawing will be held in the Kimberly Grange Hall with a quota of 100 pints. The hours at Kimberly are from 1 to 5 p.m.

Richfield sets cleanup event

RICHFIELD — Richfield Lions Club members are asked to participate in the town cleanup day Saturday.

Anyone with a pickup truck is urged to bring it. Boy Scouts and Girl Scout members also will assist.

Three new members, Edwin Johnson, Leroy Johnson and Jay Ward, have been initiated into the club.

Mrs. Leroy Johnson, Mrs. Edwin Johnson, Mrs. Ward, Mrs. Charles Buttane and Mrs. Tugger have been named to head the local eye screening

clinic to be held May 12 for all children in Lincoln County between 3 and 6 years of age.

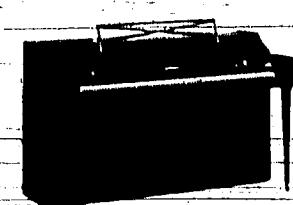

Albert Peley was named to check into the Eye Inc. program.

A work night is scheduled for

May 15 when Lions trash cans

will be distributed around town.

TF winners announced

TWIN FALLS — Contest poster winners for National Music Week are announced by the Twin Falls Music Club and the Downtowners Merchants Association.

Winners of the contest advertising Music Week activities are: Grade school division, Carlos Lara, first; Jana Wannan, second; Jim Mason, third; Junior high division, Gayle Gillespie, first; Theresa Kasel, second; Ronnie Hansen, third.

The Twin Falls Music Club will open Music Week with a parade Saturday at 4 p.m. in downtown Twin Falls. Entertainment and displays are planned for downtown and the Lynwood Shopping Center during the day.

Hazelton festival

HAZELTON — Feelings of pride and love of country were evident Wednesday night in Hazelton.

Tears welled in the eyes of the "capacity" audience of church members and townspeople as they listened to the Hazelton LDS Youth Choir sing "The Battle Hymn of the Republic" one of a variety of musical numbers in a spring music festival held at the church.

The group sang the song as a tribute to the POWs who have just returned home before a background of the stars and stripes with drums accompanying.

The chorus, composed of 20 youths, was under the direction of Jan Beems. They were accompanied at the piano by

ANDREW TULLY

The Demands Leave Him Cold

WASHINGTON — The working stiff will always get a fair shake in this space, on account of I'm one myself only more so because no porcine exploiter has me on his list for paid vacations, a pension and fringe benefits. But don't get me started on the high cost of Blue Cross for an independent contractor.

On the other hand, I'll have

to go shopping for sympathy for members of the four major unions who have opened negotiations with the U.S. Postal Service by asking for everything but breakfast in bed. The unions representing some 600,000 postmen are seeking a new contract to replace the two-year agreements which expire July 10. These demands leave me cold

because off the record of the last decade the postal workers are lucky they have not been outlawed by a revolutionary council of outraged citizens. I don't doubt that most postmen put in an honest day's work but coming to the old fashioned notion that folks should be paid off on performance and what passes for mail service in this Republic has long been a sick

joke.

All right. Management has been inept, inefficient and mostly incapable of tightening operations to achieve delivery of a first class letter across the street. But the postmen must share the blame even the good ones because their unions have been more concerned with logjam than service.

With mail service on the verge of collapse, the unions are asking for what amounts to a 30-hour workweek, instead of the present 40. They will call a 35-hour week, but in fact their demand calls for a seven-hour workday with a 30-minute lunch period and two 15-minute washup halts. Apparently, the unions are determined to show that service can, too, get worse.

The unions want to continue to present contract-bug against layoffs. They want a more liberal sick leave policy which would permit an employee to enjoy his first five days of leave merely by signing a statement that he is ill. They want a maximum of 30 days annual leave instead of the present 26. They want management to pay the full cost of health insurance instead of the present 40 per cent, the full cost of life insurance instead of the present one-third and up to \$200 per month in added retirement benefits.

True, the unions are not specifically demanding wage increases. All they want is 40 hours pay for a 30-hour week, although the workers

bargaining position speaks of the need to negotiate for more money at a later date. The gaudy thing about the situation is that the unions probably will get everything, or almost everything, they ask. This eventually is assured by the unions' not-so-secret but entirely illegal last-resort weapon. It is called a strike.

There is of course a law against strikes by Federal employees which provides fines and jail penalties for violators. Forget it. Although thousands of postal workers went on strike in 1970, not one of them was even charged with breaking the law and, indeed, the postmen were rewarded with hefty pay raises for their mockery of the statute books.

Postal officials say they're not confident the postmen wouldn't dare to strike again. They're dreamers. That collection of self-serving rabbits known as Congress bailed out the strikers in 1970 and will do so this time. As George McGovern found out, labor still has plenty of muscle, and there's a Congressional election coming up next year. Few of our legislators wish to campaign as candidates who sent strikers to jail or fined them five bucks apiece.

It is all a sick-making outrage, but I don't know what the plain citizen can do about it except move to Togoland or slit his throat. Meanwhile, those of us who collect examples of chutzpah can add the postal union's demands to our board. They are saying please remit for services unrendered.

GEORGE C. THOSTESON, M.D.

The Difference

Dear Dr. Thosteson: Will you please explain the difference, if any, between having a stroke and being paralyzed?

I was told that after a light stroke, and my leg is still sore. I was under the impression that if one was paralyzed, there was no feeling in the limb.

Paralysis means the inability to move, usually because of damage to the nerves that normally tell the muscles when to move. There can, of course, be other causes of paralysis, one example being a "frozen" joint or one which, because of arthritis or some other condition, no longer can move. In that case, the joint may be so bound by adhesions that movement is impossible, or sometimes the bones of the joint may be fused solidly together.

But to get back to the usual cause — interference with the nerve impulses that control voluntary motion. These nerve impulses originate in the brain and are conducted along appropriate nerve fibers to the muscles.

When you walk, for example, your brain is constantly sending "signals" to the muscles of the feet and legs. This happens with lightning rapidity, and you are not conscious of the myriad of separate motions to bend knee, ankle, toes and so on.

Well, a stroke is interference in one form or another, with circulation in the brain which control the motor nerves.

brain — a blood vessel occluded by a clot, or a rupture permitting blood to escape. Some portion of the brain, therefore, is damaged. The location of the damage, and its extent, governs the location and amount of the resulting paralysis, and whether it interferes with walking, talking, movement of arms and fingers, or whatever.

The paralysis may be permanent, or it may be temporary, or it may be partial. Now to answer your question about pain: a stroke may or may not result in pain in the affected part of the body. You see, there are different types of nerve fibers. The "motor nerves" control muscle activity. The "sensory nerves" convey sensation — including pain.

These are separate nerve systems. The sensory nerves connect to the thalamus, or area in the mid-brain, quite apart from the areas of the brain which control the motor nerves.

Thus, paralysis does not mean that feeling — the sense of touch or of pain — will be affected.

Indeed, in some (most certainly not all) strokes, there may be pain, but that is apart from the question you asked. The essential part of the explanation to you is that pain motion stimuli are conducted by entirely different networks of nerves.

BERRY'S WORLD

Trade Bill

WASHINGTON (NEA) — One thing becomes plainer as the trade debate sharpens: The potentially restrictive features of President Nixon's trade bill which are aimed at appeasing worried labor leaders do not impress all trade specialists as a substantive threat to more liberal commerce.

The bill would, among other things, give Mr. Nixon power to raise trade barriers as well as lower them, and would introduce the concept of domestic market disruption as a legitimate injury to U.S. jobs.

While this troubles free traders, some experts think there is less in the proposal than meets the eye.

They contend that the President's attitudes are not thought to be protectionist and that he would be little inclined

to hike barriers. They argue further that the bill really doesn't go much beyond present law in equipping him with authority to check imports.

They see the bill's advertised

protectionist elements as

valuable mostly in giving AFL-CIO President George Meany

"something to hang his hat on"

and yet blocking the far more

restrictive Burke-Hartke trade

quota bill.

These views emerged in a trade bill discussion under auspices of the research organization, the Brookings Institution. But they were not general.

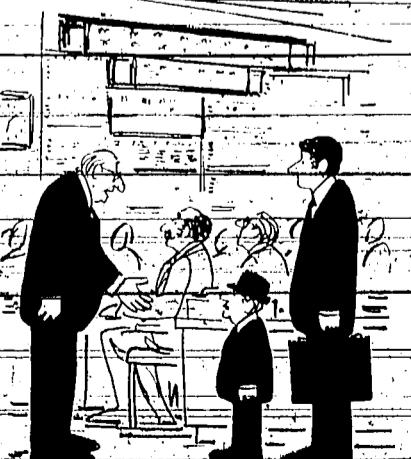

For instance, one Brookings man, Fred Bergsten, believes the Nixon proposals would give a "sharp tilt" toward the prospects for tighter restrictions on imports. He

thinks they strengthen presidential power in this regard.

If we make clear we can

guarantee the destruction of

Russia in return, the theory

"Mr. Cole, when I said that we've got to lure the little guy back into the market, I meant

More Watergate

The "chain-reaction" pattern of disclosures in the Watergate case is viewed by some sources as in no way accidental.

It is said really to have begun with leaks of grand jury testimony which was judged to be stronger than the hearsay utterances of convicted Watergate participant James McCord a month ago.

The key point, so the reasoning goes, is that Jeb Stuart Magruder, top aide to the President's re-election committee and former White House assistant, felt himself exposed by the grand jury disclosures.

There followed Magruder's return to the jury to "sing" loudly (with the sounds leaking out), and to implicate former Attorney General John Mitchell and also White House legal counsel John Dean.

Mitchell had a severe disappointment when he came to Washington less than a week before he came a second time, to testify on that latter occasion before the grand jury. On the initial visit, he was not permitted to see Mr. Nixon as he had expected. But he did learn the full scope of Magruder's new disclosures drawing him into the Watergate net.

Back in New York for a few days, Mitchell weighed his prospects in fresh light. Clearly without hope of presidential support, he decided to reverse field and acknowledge taking part in meetings where bugging of the Democrats' Watergate headquarters was discussed.

MR. SPECTATOR

Enough To Remember

THEY DO GO BACK

A cause of concern to educators is the number of college students who leave without completing the course — once estimated at 45 per cent by the U.S. Office of Education — now coarses to be a cause of concern to educators. But a university psychologist has studied the problem and concluded that it is not necessarily a problem.

The professor has found that 70 per cent of college dropouts return eventually to get their degrees. And significantly, the professor says, many who do so report the maturity gained during their absence has strengthened their will to learn.

A similar experience was noted after World War II when veterans, who had been forced to interrupt their education, returned to the campus older in years and more mature in viewpoint and did better academically than they had at the outset of their college careers.

There is a suspicion that some of the youngsters who tax the facilities of colleges and universities aren't old enough to be there. Perhaps it doesn't do them any harm to take time out for growing up and then return.

But like we all know — some never grow up, mentally, that is. **TODAY'S CHUCKLE:** Now that the TV is insisting on honest commercials, Brand X might win!

TIMELY QUOTES

We've already got chiropractors. They're bad enough. This is going to open the door to everything. It's amazing what can happen here.

—Dr. V. A. Salvadoreini of the Nevada State Medical Assn., on a bill that would legalize acupuncture treatment by nonphysicians in that state.

I always rejoice when you find someone in error has found the path of righteousness near.

You don't need more hearings, you need more gumption. Stand up on your hind legs and kick them (the administration) in the slats.

—Raoul Berger, senior fellow, Harvard Law School, testifying before Senate subcommittee on the question of executive privilege.

"Let's Hope This Is a Sweet One, Henry!"

RAY CROMLEY

Nuclear Shift

WASHINGTON (NEA) — A major shift in U.S. nuclear strategy may be on the way. The thrust of the new approach advocated by some high administration men:

That a new generation of intercontinental nuclear missiles be designed so accurately they could take out an enemy nation's military and industrial complex and thus its power to wage war effectively while leaving vast civilian populations relatively unscathed.

By contrast, present nuclear strategy aims at insuring peace by mass destructive weapons targeted to kill 30 million to 40 million or more civilians.

These new accuracies will be practical in less than a decade if the necessary research is begun now on a sufficient scale.

That these new offensive weapons be secured so safely and so thoroughly that immediate reaction to a Russian or Chinese strike would not be necessary. Rather, the president of the United States would be able to take his time before retaliating for reacting.

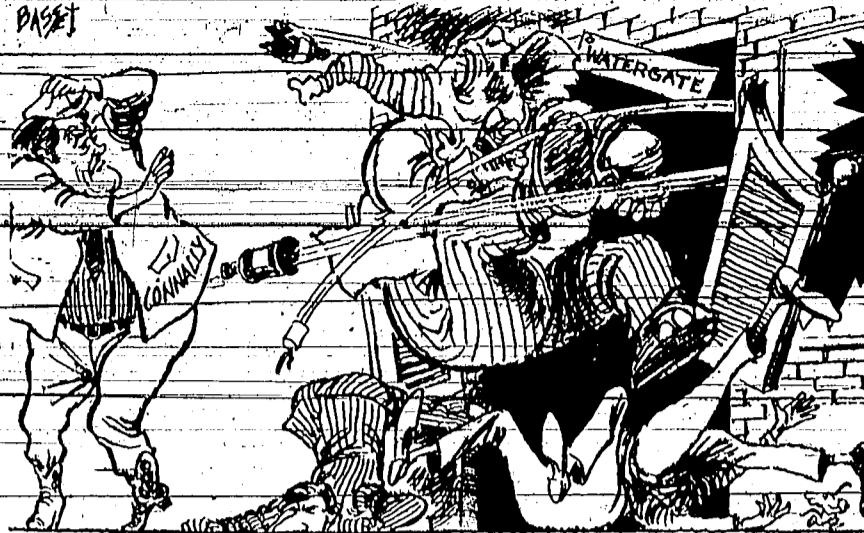

Today, the requirement for speed could turn an accidental missile firing into an all-out atomic war.

That coupled with these shifts in offensive weapon technology, there be an agreement to develop in the United States, Russia and China advanced defensive weapons that would insure the safety of populations in the event of nuclear war, do away with the concept of making tens of millions of men, women and children hostages, as one administration advocate of the new policy puts it.

The drive for a new nuclear strategy is sparked by three chilling realities, as outlined by Frederick Charles J. KIC, President Nixon's nominee for chief of the U.S. Arms Control and Disarmament Agency.

Today's strategy would not protect us from a madman. Under present concepts, some 40 million Americans lives and the existence of the United States as a nation may depend on Russia always being ruled by sane, logical men who will weigh the pros and cons carefully before launching a nuclear strike on the United States.

If we make clear we can guarantee the destruction of Russia in return, the theory

Capitol Hill sheds no tears for departed White House pair

WASHINGTON (UPI) — Not a tear was shed on Capitol Hill for the departed Mr. Haldeman or the departed Mr. Ehrlichman.

And the absence of sorrow had nothing, nothing at all, to do with Watergate.

H.R. Haldeman and John Ehrlichman, the iron dukes at the White House palace, made too many enemies on Capitol Hill.

They, more than anyone, were blamed by congressional Republicans for the lack of communications which isolated President Nixon from the Senators and House members of his own party.

They — Haldeman more than Ehrlichman — were accused of arrogance and unwillingness to cooperate with the legislative branch, and lacking knowledge of the workings of Congress.

Now, Senate Republicans are pressing Nixon to name us replacements for Haldeman and Ehrlichman — persons not

only the chief executive has confidence in but also persons who can work with Congress.

Declining to pin the blame squarely on Haldeman and Ehrlichman, Senate Republican Leader Hugh Scott said relations between the White House

can be improved, should be improved, and I hope, will be improved."

Scott said Nixon should

Ehrlichman were not.

He listed possibilities such as George Bush, former Texas congressman and now Republican National Chairman; Donald Rumsfeld, also a former congressman and now U.S. ambassador to NATO; former Wisconsin congressman John Byrnes, who was beaten at the polls the last time out; former Sen. Caleb Boggs of Delaware, another election day victim.

Asked if Nixon knew of the feeling among Hill Republicans, Scott said "he has been made aware of it" but said he had not directly communicated with the President.

But there are already indications that Nixon has heard or realized — because of the Watergate scandal — that the battle of Wounded Knee also not the battle of the bended knee."

The men to be named as possibilities are, in a phrase now become fashionable among Republicans: professional politicians. Haldeman and

Ehrlichman, and that one of those he may bring into the White House is Rumsfeld.

That would be good news for the Republicans in Congress, perhaps a new era of cooperation with the White House instead of the intramural

sparring that has marked the first and the beginning of Nixon's second term.

In elections in 1970 they also

replace his two departed associates with men who "know the Congress, who understand it, and who do not conduct if not the battle of Wounded Knee also not the battle of the bended knee."

The men to be named as possibilities are, in a phrase now become fashionable among Republicans: professional politicians. Haldeman and

There is speculation that Nixon plans to decentralize the power he gave Haldeman and

Watergate possibly iceberg tip

WASHINGTON (UPI) — The Senate Watergate Committee is investigating a large pattern of political espionage and sabotage during the 1972 presidential campaign, of which the Watergate-bugging may have been only the tip of the iceberg.

According to information from several sources, the committee is seeking to find out the extent of the operation headed by California attorney Donald H. Segretti, who reportedly was hired by President Nixon's appointments secretary, Dwight L. Chapin, to put together a political espionage network.

The offices of Sen. George S. McGovern, the 1972 Democratic presidential nominee, and Edmund S. Muskie, the Democratic front-runner earlier in the campaign, are compiling information about suspicious incidents that might have been merely the result of poor planning or staff work — or sabotage.

But these known incidents, even if true, are in the Nixon re-election effort, would not have exhausted Segretti's allegedly available resources.

During former acting FBI director L. Patrick Gray III's ill-fated confirmation hearings, Gray testified that Herbert Kalmbach, Nixon's personal lawyer, gave Segretti \$10,000 to \$10,000 between Sept. 1, 1971, and March 15, 1972.

It also has been reported that Segretti contacted up to 50 persons to conduct espionage and make 500 to 700 long-distance telephone calls some to the White House. What these persons were supposed to do, and what the calls were about, is not known.

It is known that Segretti solicited personnel among the college Republicans, a division of the Republican National Committee.

George Gorton, College Coordinator for Nixon's Re-election Committee, was reported to have made and then retracted a statement that he had college students in 20 states involved in infiltration of the Democratic campaign. One was Ted Brill, 20, of George Washington University, who was allegedly paid \$150 a week to infiltrate a peace demonstration outside the White House. Another was Tom Gregory, of Brigham Young, who allegedly was paid \$175 a week to infiltrate the Muskie and McGovern campaigns, particularly to get campaign financial mailing lists.

UPI learned Thursday that Gorton left the Interior Department payroll in April after spending one month there without having worked. Gorton's superior, Ron Riely, quit abruptly two weeks ago as head of the 1974 Republican election effort to take advantage of "an extraordinary" business opportunity.

Federal court issues warrant

NEW YORK (UPI) — A federal court Thursday issued a warrant for the arrest of Robert L. Vesco, a New Jersey financier accused of making a secret \$200,000 cash contribution to President Nixon's re-election campaign.

The arrest warrant was signed by Federal Judge Edmund L. Palmieri after Vesco ignored a subpoena to testify before the grand jury investigating the campaign gift, made after the Securities and Exchange Commission named Vesco in a \$24 million civil fraud suit.

The suit charged Vesco and 41 others had looted Investors Overseas Services Ltd., a Swiss company of which Vesco was board chairman.

The subpoena was served on the 37-year-old Vesco late last month at his home in Nassau, but he threw it back at the federal agent.

The New York Times said that Vesco hired Donald F. Nixon, the young nephew of President Nixon, one month after the SEC investigation began. The Times said Donald Nixon subsequently became the personal aide to Vesco and lived with the Vesco family in their ranch home in Bounton, N.J.

The grand jury has already questioned Maurice Stans, who reportedly accepted the \$200,000 contribution, still in \$100 bills, from two former Vesco associates. Stans, former secretary of commerce in the Nixon administration, was chairman

Tallest building

UPI's eye view of the world's tallest building, the Sears Tower, during topping out ceremonies Thursday. The 110-story, 14,450 ft. office structure, which is scheduled for completion by 1974, will provide more than 4.5 million square feet of space and will cost more than \$150 million. (UPI)

Sears Tower tops city

CHICAGO (UPI) —

Strong winds threatened to delay the ceremony, but construction workers Thursday succeeded in bolting into place a 2,500-pound steel beam more than a quarter of a mile in the air to make the Sears Tower, on the western edge of Chicago Loop, officially the tallest building in the world.

Officials feared that the cold winds sweeping the city would cause the beam to break windows on its way up, but the breezes died down long enough for topping-out proceedings to be completed — making the building 1,451 feet high.

That's more than 100 feet higher than New York City's twin towers of the World Trade Center, which are now the

world's second tallest buildings at 1,350 feet. The Empire State Building ranks third at 1,250 feet. Chicago's Standard Oil Building and John Hancock are next at 1,136 and 1,127 feet respectively.

Both the Sears Tower and the World Trade Center buildings

contain 110 stories. Sears, when its antenna is installed, will tower 1,800 feet above Chicago. A ceremony with about 300 dignitaries in attendance accompanied the topping-out. The Sears building, with a frame of 76,000 tons of steel, encloses 4.5 million square feet of floor space.

Delta farms flood

By United Press International

The muddy backwaters of the flooding Mississippi River crept over more Delta farmland Thursday, erasing any hopes for a cotton crop in sections of Tennessee and Mississippi and forcing the shutdown of three-fourths of Louisiana's oyster industry.

More families around Vicksburg, Miss., were forced from their homes as the nation's longest river built toward a predicted crest of 53.5 feet, more than seven feet over flood stage, on May 4. Thousands of persons already have been evacuated during the month-long flooding.

The Mississippi crested at 54.6 feet at Cairo, Ill., Thursday, but the city was safe behind 45-foot levees, and the Upper Mississippi Valley began a cleanup under clear, dry weather.

On the Lower Mississippi, however, farmers could only watch helplessly as the waters slowly inundated more fields.

"There's no way out of it, it's pretty rough," said B.N. Simball, who operates a cotton and soybean plantation near Vicksburg. "It's going to break some people."

Most planters in the delta have given up hope of making a cotton crop this year, but still hope to salvage their soybeans, which can be planted later in the spring.

"If the water would just go down, we'd be working in the fields day and night," said Agricultural Agent Jimmy Lloyd in Dyersburg, Tenn.

Illinois recruits ex-cons

CHICAGO (UPI) — Illinois Secretary of State Michael J. Howlett said Thursday his office would recruit and hire ex-convicts as part of a program to rehabilitate persons with criminal records.

Howlett, addressing the annual "Meet the Press" luncheon of the John Howard Association—a prison reform group, said the state had not been "practicing what it preaches."

"We will do our part," Howlett said. "We will go as far as we can within the framework of the law and the state personnel code to recruit ex-offenders on their merits and their potential usefulness."

"They will find no cold-shoulder in our office. We know they can serve the people of Illinois faithfully and well. We will provide incentive for them to do it."

Howlett appointed a four-man advisory committee to help screen applicants who have a criminal record.

Fred Hall, editor and publisher of the Chicago Courier and the first ex-offender to serve on the board of the John Howard Association, called Howlett's decision "historic."

"...Until you have sat on the other side of the table and been the defendant you really don't realize the importance of what has happened here today," Hall said. Hall served 4½ months in federal prison in 1965 after being convicted of using his position as secretary of the late Rep. William Dawson, D-Ill., to obtain advancement for post office employees.

Music rescued

Move grows in Congress to deny Pentagon funds

WASHINGTON (UPI) — A growing debate in Congress over the war in Cambodia has the armed forces wondering if they will have the money to make their June 30 payrolls.

The Pentagon wants to transfer \$100 million from its "weapons" account into two other accounts — "operations and maintenance," from which the bombing of Cambodia is underwritten, and "military personnel" from which soldiers are paid and fed.

But there is a growing move in Congress to deny the

Pentagon authority to switch the funds.

If the Pentagon is turned down by Congress, it could split up its other bombers going officials said. But they said ships by the dozens would probably be ordered into port and other aircraft grounded to save fuel costs. Spare parts purchases might grind to a halt and "anything that could wait would wait."

On July 1, the new fiscal year begins, and new funds will then be available for costs incurred after that date.

Solons seek gas supplies for loners

WASHINGTON (UPI) — A group of senators asked President Nixon today to force gas station refiners to supply all their old customers lest a gas shortage put 40,000

independent dealers help to hold down inflation through their competitive pricing, the letter said.

"The extent to which they are being crippled is even now evident in the rapidly rising prices," the letter said. "If the present shortages are allowed to continue, these businessmen, not only will management and employees from 40,000 stations be thrown out of work but the gasoline market will be dominated by only a handful of major integrated oil companies."

Sen. Philip A. Hart, D-Mich., chairman of the Senate antitrust subcommittee, said independent stations, which sell about a fifth of all gasoline, are being forced out of business everyday by the shortage of gasoline.

Once closed, they rarely can reopen, Hart said.

He sought co-signers among

his colleagues for a letter which is to go to Nixon Monday. So far, 14 have signed it.

Independent dealers help to hold down inflation through their competitive pricing, the letter said.

"Under an amendment to the Economic Stabilization Act opposed by the administration and the oil industry but signed into law by Nixon Monday night — the President has power to require major refiners to allocate gasoline, crude oil and petroleum products among all their former customers."

Hart said independents are especially important in the Midwest and account for half the gas stations in Kansas City.

He said the Michigan Dealers Association estimates that a fifth of all urban stations in Michigan have already closed because of short supplies from the big refiners.

Nixon aides paid for favorable ad

WASHINGTON (UPI) — The General Accounting Office (GAO) has charged that President Nixon's campaign committee violated federal election law when it placed an ad in the New York Times last year in support of Nixon's decision to mine Haiphong Harbor.

The GAO's Federal Elections Office said the ad — which appeared to have been placed by private citizens actually was cleared by the White House and paid for in cash by the Finance Committee to Re-elect the President.

It said the committee in violation of the law did not mention its name in the ad or list the names of its officials.

"In a report issued Thursday, the GAO referred the matter to the Justice Department for further investigation and possible legal action."

The report said officials of the November Group, created by the re-election committee to handle all campaign advertising, "did not want either the name of the committee or the names of its officers shown in the ad."

The GAO, Congress' investigating arm, said Charles W. Colson, Nixon's former special counsel who resigned earlier this year, "informed us that he reviewed that draft and probably made changes in it."

Missionary work theme of Cassia stake conference

DECATO — Welfare and missionary work was the theme of the Cassia East Stake quarterly conference Sunday morning at the stake center in Decato.

Joseph A. Gillett, stake president, directed the conference. Visiting speakers were Max Mortensen, regional representative of the Council of Twelve, Salt Lake City, and Burnard Eberhard, mission president of the Portland, Ore., mission. Three full time missionaries accompanied Elder Eberhard.

Other speakers were Jay Nelson and Horace Coltrin of the stake presidency; Earl Prest, recently returned missionary from the Northern Indiana Mission in Montana; Bernadien Fillmore and president Gillett.

Congregational singing was

directed by Mrs. Morna Marcelline with Mrs. Clyde Wardle serving as accompanist. Special music was furnished by the Elba Ward choir with Mrs. Thirza Hutchison directing and Mrs. Orville Sears accompanist.

Bradford Gardner, Morgan War, John Angus and Leon Paskett were advanced as elders in the Melchizedek priesthood through a sustaining vote.

Prayers were given by Lewis Ottley and Richard Wolf.

The Saturday afternoon and evening sessions of the conference had listening for the theme. A film entitled "Are You Listening?" was presented and talks were given to advance the theme.

The next stake quarterly conference will be in August.

Former minister sets speech in TF

TWIN FALLS — C. E. Spence, former minister now a building contractor at Rupert, will speak at the monthly meeting of the Full Gospel Business men's Fellowship Saturday.

The dinner meeting at the Holiday Inn, scheduled for 7:30 p.m., is open to anyone interested, according to Wayne Barney, president.

Spence will discuss the charismatic movement which, he says, "has got close to my heart. I see that God is doing a new thing and this is His time."

Spence believes there has been a competitive spirit in the churches just as in the business world, with the result that

people are fearful of any fellowship or unity with each other, Barney said.

This competition, he feels, has hindered God's work and now God is breaking down these barriers and "we see Methodists, Presbyterians, Pentecostals, Catholics and other denominations gathering together to pray, study God's word and worship together without the name of church to scare people away."

He sees people from all denominations for the first time in history still going to their separate churches, but working together in fellowship to spread the gospel.

TF Baptists will hear missionary

TWIN FALLS — Johnny Wilson, missionary from Australia, will be featured speaker at 7:30 p.m. services Friday at Victory Missionary Baptist Church, 1429 2nd Ave. E.

RAY GREEN, Pocatello evangelist, will present a series of lessons on the Bible at the Twin Falls Church of Christ Sunday through Wednesday. Services will be held at 7 a.m. p.m. each evening except Sunday when they will be at 6:30 p.m. The public is invited. The church is located on Filer Avenue East.

Vatican adviser dies

DENVER (UPI) — Archbishop Edward Heston, head of the Vatican department that deals with the mass media, died Wednesday night as he stepped from an airplane at Stapleton International Airport.

Doctors said Heston, 67, died of a heart attack.

He was born in Ravenna, Ohio, but called South Bend, Ind., home.

Heston, appointed by Pope Paul VI as president of the Pontifical Commission on Social Communications in 1971, briefed newsmen during the Ecumenical Council in the mid-1960s. He was one of the first Roman Catholic churchmen to do so at the Vatican.

He was on his way to Portland, Ore., to speak at the University of Portland when stricken.

Heston was ordained a priest in 1935 and after graduation, he served at the Vatican as secretary of the department that deals with friars, monks and nuns. The Pope named him an honorary bishop one year ago after his promotion to the communications commission.

A church official said funeral services were not yet arranged but would take place at Notre Dame University in South Bend.

FILER — The Filer Young Mothers' Counseling Service will hold a potluck dinner at 7:30 p.m. Tuesday in the First Baptist Church fellowship hall.

Fred McCabe, of the Twin Falls Child Development Center, will speak on "Understanding the Problem Child." There will be installation of new officers. Mothers are invited to bring guests.

FILER — The Women's Mission Society of the First Baptist Church held a potluck lunch at 12:30 p.m. today in the fellowship hall.

The program featured installation of officers with

Mrs. Kenneth Shev serving as

installing officer. Mrs. Russell Terrell, Mrs. Richard Tucker and Mrs. Ray Wright were

hostesses.

Camas school leaders named

FAIRFIELD — Camas County High School announced student honorees and office holders at an awards assembly Tuesday.

Bill Stroud was named as valedictorian and Kim Fields as salutatorian.

New student body officers include Brent Giesler,

Awards went to Joel Packham and Rozane Gaskill, school spirit; Kim Fields and Connie Kevan, scholarship; and Bill Stroud and JoEd Merrick, leadership.

Roxane Gaskill was also cited for school citizenship. Cheerleaders include Beccie Eckles, Debbie Tate and Nancy Gaenzle.

Big city police do study

WASHINGTON (UPI) — The chances are increasing that the man who murders you will be a stranger.

At least that's what New York police psychology professor Morton Bard says, based on a study of statistics from four big-city police departments, which he plans to publish soon.

In the past, national crime statistics have shown that 80 per cent of all homicides involved persons either related or known to each other. Between 35 and 40 per cent were relatives.

Bard says his figures show that an increasing number of murders are committed by persons unknown to the victim.

He told a group of science writers at an American Psychological Association meeting Wednesday that murders involving people who know each other have declined 23 to 30 per cent in the four cities since 1966.

He blamed the change on handguns, which people carry and use in unexpected arguments with strangers.

Bard is a psychology professor at the City University of New York and the creator of a family intervention plan for New York City police that he says has sharply reduced the rate of deaths and injury while dealing with family fights. Some 50 cities now have family crisis intervention plans for police, he added.

Bard declined to name the four cities reporting higher rates of murder-by-strangers.

In one of the four cities, he said, 72.9 per cent of all homicides in 1965 involved persons known to each other. Last year, it was 49.9 per cent. The city's overall homicide rate doubled in the last five years, Bard added.

The statistics were gathered as part of a government-financed research project.

Almo girl named as stater

ALMO — Vickie Jones has been named Girls' State delegate from Raft River High School.

Mrs. Jones, 17, is the daughter of Mr. and Mrs. Gloc W. Jones, Almo. She has been active in Pep Club, drama and girls' track. She has been a cheerleader for two years, served as sophomore class secretary and is president of the Future Homemakers of America.

She is also active in 4-H club work and will edit the school annual for 1973-74.

VICKIE JONES
... delegate

Jerome cleanup set

JEROME — A special meeting will be conducted at 7:30 p.m. today to complete plans for the city and county cleanup day scheduled Saturday.

John Van Orman, county commissioner and one of the project's chairmen, said the meeting will be at the Jerome County courthouse and is for the purpose of lining up routes and assigning captains.

Van Orman said the city, Northside Canal Co. and the Jerome Highway District will furnish trucks and crews to help with the cleanup. "Anyone having additional trucks or pickups that can be used is asked to attend the meeting Friday," Van Orman said.

He said that those unable to attend the meeting may contact city engineer Bill Block at the city hall.

The cleanup is being conducted in conjunction with Johnny Horizon Day being sponsored by the Bureau of Land Management.

Workers are asked to meet at 8:30 a.m. Saturday at the Jerome County Fairground for assignments.

In the east end of the county, Edon and Hazelton are also participating in the cleanup with their program set to begin at 8:30 a.m. Workers in that area will be under the direction of county commissioner Claude Bernard.

The City of Hazelton in cooperation with county commissioners will provide lunch for workers. The food will be prepared and served by Lions Club members in the Hazelton City Park at 1 p.m.

Van Orman said that students or Boy and Girl Scouts who will be participating in the cleanup and while working along state highways will be required to have permission slips from their parents. He explained that the State Highway Department requires these slips to prevent liability in case of injury.

Check presented

JUSTIN Mills, right, member of the Hollister Booster Club, presents Howard Kinsfather, principal of the Hollister Elementary School, with a check for \$200 to buy library books for the school. The club held several fund-raising events to raise the money.

Hollister honors graduating youth

By MARJORIE LIEHRMAN
Times-News writer

HOLLISTER — Hollister may be small in size, but it is large in enthusiasm and community spirit.

Nearly the entire community gathered at the Hollister Grange Hall Wednesday evening to honor Hollister seniors who will graduate from the After High School this month, 11 sixth grade

graduates from the Hollister High School and the eighth grade graduates from the Hollister, Rogerson, Amsterdam and Berger grade schools.

After consolidation with the Filer Schools in 1948, the Grange decided to continue the event to honor the high school graduates from the Salmon Tract and the sixth graders from the Hollister Grade School who would be entering the seventh grade the following year in Filer to finish their education.

For the last two years the eighth grade graduates from the Three Creek area also have been guests of honor.

Those desiring to register should go to the city office from 7 a.m. to 5 p.m. The registration fee is \$1. Ages for boys are first grade through 16 years. Girls age 10 through 16 may register.

Anyone interested in coaching or helping with the program should call Mrs. LaMar Stuart at 438-4201.

Buhl open house scheduled Sunday

BUHL — M. J. McGuire, Buhl, will be honored with an open house at Harral's Nursing Home, Buhl, on his 90th birthday.

The event will be from 3 to 5 p.m. Sunday.

He came to Idaho from Kansas with his family in 1918, living in the Buhl area until 1921 when he moved to the Deep Creek District and farmed until his retirement in 1952. He was active in the Deep Creek and Pomona Grange for many years. His wife, Grace, died in 1962.

Hosts for the event are his five children, D. A. McGuire, Twin Falls; Mrs. Hurley (Lois)

Teeter, Rupert; Mrs. Homer (Esther) Dunakin and Mrs. Lester (Naomi) Blayne, both Portland, Ore., and Mrs. J. E. (Marcus) Bush, Vancouver, Wash.

All relatives and friends are invited to attend. The family requests no gifts.

Jewelry for fall will emphasize classic shapes in mixed materials, naturals like wood and cork with plastic or lucite, silver with liberal doses of gold, brights with neutrals, lucite laminated with glitter.

Accepts award

Flea market set by Blaine group

HAILEY — Area residents have been promised "a large selection of rummage" at the annual Blaine County Hospital Auxiliary "Flea Market" Saturday in Hailey.

According to Teresa Bergin, publicity aide for the event, the sale will be conducted from 10 a.m. to 5 p.m. at the Hailey Ward L.D.S. Church.

Featured at the sale will be books, plants, handwork, children's toys and furniture as well as cooked food and refreshments. Mrs. Bergin

said.

Spaces have also been sold to local artists to display and sell their work, including macrame, handcrafts and hand-made furniture.

General chairman for the sale is Edna Backer. Auxiliary volunteers, aided by candy strippers, have prepared the market and will operate the sale.

Mrs. Bergin said proceeds from the event will be matched with hospital memorial funds towards purchase of an isolator for the hospital.

By Oswald & James Jacoby

The unlucky expert had caught us again. Here is his and story.

I opened the king of spades. My partner played the deuce so I shifted to the jack of diamonds. He played the eight and South was in with the queen. He entered dummy with a club and led the jack of hearts for a finesse.

I took my king and led the diamond off. Dummy's king lost to my partner's ace. He led a third diamond and it was "Katie bar the door." South ruffed, drew trumps and claimed. Couldn't my partner have realized that if I held a five-card spade suit

he would have led a second spade?"

"Hmummm," we said as we escaped.

Our "Hmummm" was by no means an agreement with our friend's analysis. We give him full blame for the debacle.

To start with, he had over-called with a four-card suit when he also held four cards in the unbid suit. A takeout double in a pass would have been better action with his hand.

In addition he might well have assumed that if East held four spades to the queen-ace and a side ace, East would have raised one spade to two. Therefore the unlucky expert should have cashed his set of spades before leading the second diamond to make sure of the set.

(NEWSPAPER ENTERPRISE ASSN.)

© 1973 by The Living Bank, P.O. Box 6746, Houston, Tex. 77005.

DEAR ABBY: Thank you for giving me another opportunity to say that no matter what else I have in mind, these, I think will be the most precious.

A few facts: Having once made such a commitment, you may leave it at any time, should you so desire. There is NO disqualification whatsoever, because at the time of the commitment, such donations may NOT be bequeathed in one's will, because wills are usually read after the deceased has been buried. Organs are NEVER sold. They are given free to those who need them.

For additional information, write to The Living Bank, P.O. Box 6746, Houston, Tex. 77005.

DEAR ABBY: My daughter, who is married to a very well-to-do man, wants me to move into her home while she and her husband vacation in Europe for six weeks.

I am a widow, 75, and very active. I am willing to go to her home "every day" to water her plants, bring in the mail, and check up on things, but the problem is their dog. She can't leave him alone, so I have to sleep there.

Abby, I am terrified of staying there alone. It is a regular mansion. She has three live-in help, a couple and second-maids who all take their vacations at this time.

They refuse to put the dog in a kennel because they did that once and the dog went on a hunger strike and nearly died. I'd take the dog to my apartment but they don't allow dogs.

I've told my daughter I was afraid to stay at her place alone and she says, "Nothing can happen to you. Keep the floodlights on all night." I say if rumors see floodlights on all night they will know someone is alone there. My daughter laughs at me.

Abby, I am hurt to think more of these tragic feelings than mine, but what can I do? They have been wonderful to me otherwise, so I hate to say no.

NO LOCATIONS; PLEASE

DEAR ABBY: Why don't you invite a friend to stay there with you? Or, since your daughter is well-off, suggest she hire a security guard to watch the place at night.

DEAR ABBY: My sister-in-law, whose last name is the same as mine, just had a baby girl. I am pregnant and am due to deliver any moment. My sister-in-law who wasn't due for another three weeks, delivered early.

My problem is that she used the name I thought up. I have a girl I can't just call that name because it will cause all kinds of confusion since the cousins will live in the same town, and will be constantly confused in school, etc.

When I told her the name I was going to use if I had a girl she kind of made fun of it so I never dreamed she would use it. What should I do? I have always loved that name and now I can't use it.

NAME STOLEN

DEAR STOLEN: You can use it if you want to. But cheer up. You may have a boy.

PROBLEMS? You'll feel better if you get it off your chest. For a personal reply, write to ABBY — Box No. 60700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope, please.

Valley Briefs

MALTA — Mrs. Olani Wallace has been named president of the Malta PTA for the 1973-74 school year, according to Mrs. Jay Cottle, re-elect president. Other new officers are Mrs. Olean Warr, vice-president; Mrs. Robert Parke, secretary, and Mrs. Roy Rose, assistant secretary.

TWIN FALLS — Twin Falls Hobbycrafters Club will meet at 1 p.m. Wednesday at Harry Barry Park.

TWIN FALLS — Vishnu Camp 2970 of Royal Neighbors of America will meet at 7:30 p.m. today at the Odd Fellows Temple. All members are urged to attend to practice for the convention. Mary Stearns and Susie Pratt will serve.

TWIN FALLS — A coffee for prospective members of So-Journey Club will be held 7:30 to 8:30 p.m. May 10 at the home of Mrs. Robert Skredsrød, 1211 Hwy. Dr. All are welcome. MYRD BILLS So-Journey members are urged to attend.

GOODING — Melody Squares will dance at the Gooding Grange Hall Saturday at 8:30 p.m. All square dancers are welcome. MYRD BILLS will call and refreshments will be furnished.

JEROME — Senior Girl Scout Troop 241 will sponsor a fashion show and tea Saturday at 1:30 p.m. in the Jerome Armory. Proceeds will help finance the troop's trip to the Girl Scout International House in Mexico City this summer. Tickets may be purchased at the door.

FILER — Marna Woman's Club will meet at 2 p.m. Thursday at the home of Mrs. Pauline.

TWIN FALLS — Alumni of the College of Southern Idaho will hold a reunion banquet Saturday in the Downtown in Boise. The event begins at 7 p.m. with a dinner and continues through the evening. Free entertainment and door prizes are planned, for the informal event.

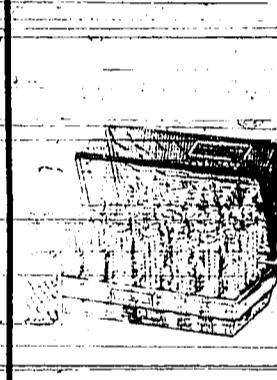

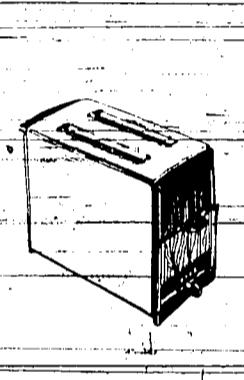

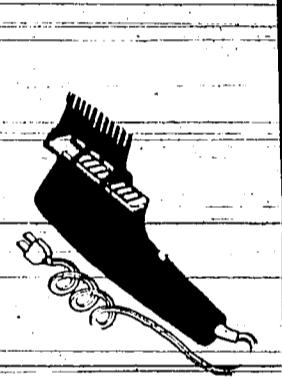

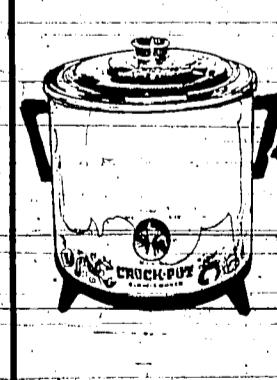

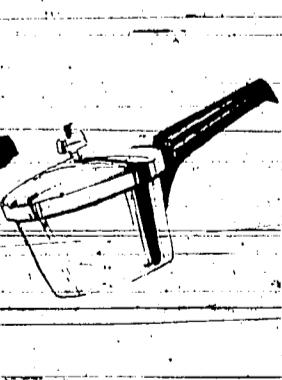

GOODING — Melody Squares will dance at the Gooding Grange Hall Saturday at 8:30 p.m. All square dancers are welcome. MYRD BILLS will call and refreshments will be furnished.

THE 20TH Century Club of Twin Falls was richer by two plaques and \$700 to day as a result of taking the lions share of awards of the Idaho Federation of Women's Clubs convention ending in Rexburg Wednesday. Here Mrs. D. A. Jackson, left, and Mrs. Ray Painter, president, accept the community project awards from Dorothy R. Johnson, Boise Shell Oil Co. official.

More Gem meat

BOISE (UPI) — Red meat production during March climbed 10 per cent, Idaho above the level of a year ago, the Idaho Crop and Livestock Reporting Service said today.

Total output of red meat was 31.9 million pounds, compared with 24.4 million last year.

Elmore fields need replanting

GLENNS FERRY More than 900 acres of beets have been delivered into a main canal which will feed sprinkler-lines.

A combination of desert conditions and private land owners are cooperating in the project, Edwards said.

The pipelines are completed, potatoes planted and ready to irrigate. Another 1,000 acres of meat "Hammett" will be delivered into a main canal which will feed sprinkler-lines.

Wind has been worse than frosts, causing damage to young beets, according to Robert Hughes, of the Amalgamated Sugar Co. Mountain Home. He said the most damage was due to the combination of wind and frosts that the tender plant might be buffeted all day by wind, then hit at night by low temperatures, but not cold enough to damage, without the wind effects.

Another 6,000 acres south of Glens Ferry is being put into production this year. The development is located south of the Saylor Creek Farms, west of Glens Ferry. The same base pumping station on the Snake River will be used with additional electric pumps being added. The water will be

Thermal energies studied

RENO, Nev. (UPI) — Electric utilities are interested in exploring geothermal resources in the west as a possible supplement to the nation's energy supplies.

West Associates, a group of 23 utilities operating in the western United States, issued a position paper pointing to the national concern over the availability of future energy resources.

The statement was issued by Neil Plath, Reno president of Sierra Pacific Power Co. and a vice president of West Associates.

"At present there is no way of estimating accurately what the potential geothermal energy resources in the western states may be," he said.

Salmon low

SALMON — The Salmon River here was 2.30 feet May 1, slightly higher than the two feet measured April 1.

Bob Stokes, official river reader for the U.S. Weather Bureau, said the level now is the lowest he can recall in the past 15 years at this time of year.

Limas, whites show advances

STOCKTON, Calif. Baby limas and small whites required price advances for the week of April 21, according to the Bean Market News.

The Agricultural Marketing Service publication showed current stocks of baby limas, large limas and small red kidney well below those of a year ago.

Prices for baby limas ranged to 50 cents per pound at 19.25 to 20.50. Remaining stocks are approximately \$43,000, 1800, less than a year ago. This factor has helped to add strength to the current market.

Prices for large limas continued strong at \$3.00 to \$3.10.

Some dealers lack supplies. Blackeyes remain unchanged, at 26 to 30. Beans slightly below U.S. No. 1 quality and suitable for packaging ranged \$1.00 to \$1.10.

Pink pinto held at 13.00. Idaho and Washington pinks delivered by truck to California destinations were reported at 12.33 to 12.39. Small whites prices ranged 10 cents higher at 17.75 to 18.85. At current bids, growers are not selling in quantity.

Light red kidney prices were unchanged at 27.50 to 28.00.

Light red kidney prices were unchanged at 27.50 to 28.00.

NEAR ORCHARD PAYOFF

PLATINUM, N.Y. (UPI) — Apple grower Edward Hendershot thinks he may have found a way to provide people with picnic places, fishing, good clean air, and maybe make more than \$100,000 for himself.

Fire cost plans set at Filer

By DAVID ESPO
Times-News writer

FILER — County and local officials have agreed on a two-part plan to try to reduce fire insurance costs at the county fairgrounds east of here.

Involved in the effort is an estimated \$57,000 outlay in county revenue sharing money for improvements in the water main system at the fairgrounds as well as a contractual agreement to provide Filer fire protection for the grounds.

Although formal annexation of the fairground by Filer has been discussed, it has been rejected, largely on the advice of county prosecuting attorney Robert W. Galley.

County officials estimate annual savings to the taxpayers of about \$12,000 once the plan is completed, although they agree that amount will be reduced by the amount of fire protection costs the county will have to pay Filer.

Commissioner Merl Leonard said Thursday he had met with the Filer City Council this week to discuss the possibilities for providing protection and Mayor Dan Kauffman said agreement had been reached with the lawyers directed to negotiate a contract.

The basic ingredients, according to both Leonard and Kauffman, include having the county pay a standard periodic amount to the city for fire alert. In addition, any actual fire runs that are needed at the fairgrounds would be paid for out of county funds.

The decision not to have the fairgrounds annexed came after Galley wrote an opinion for the county in mid-April telling the commissioners there is no provision in state law for conditional annexation. That is, the city could not annex the fairgrounds in order to provide fire protection and for no other reason.

Because of that problem, Galley wrote, any city ordinance passed by the present Filer City Council, or any future council, would be binding on activities at the fairgrounds.

Galley advised against annexation and steered the commissioners in the direction of a contract to provide for fire protection instead.

The commissioners announced several days ago they intended to spend about \$57,000 to upgrade the water mains at the fairground. They said the renovation would result in the savings to the taxpayers on the fire insurance premiums.

The county currently budgets \$60,000 for insurance and bond premium.

Seniors event

Talent show slated

TWIN FALLS — A special kind of talent show is scheduled here Sunday at 2 p.m. in the Fine Arts Auditorium.

Senior citizens only will be participating and they will be representing all parts of Magic Valley. Those selected as the most outstanding will represent this area in a state-wide show in Boise May 14.

Some oldtime fiddlers, piano, voice and even some dancing are anticipated among the special numbers.

There is no charge for the show and the public is invited to attend. Martha Brown will be master of ceremonies.

Control meet set

WASHINGTON (UPI) — Hearings on predators and their control will be held beginning at 9:30 a.m. June 1 in the Sun Valley Lodge by the Senate Interior Committee on Public Lands.

Sen. Frank Church, D-Idaho, requested the hearings last January to explore how predators can be controlled best now that chemicals and poisons may no longer be used.

The decision to ban the use of chemicals or poisons in controlling predators was made in an executive order issued last year by President Nixon.

In the aftermath of the ban, there have been increasing protests from stockmen that they face economic hardship because of the growth in numbers of predators.

"This is an area where alternatives need urgently to be developed and discussed," he said.

Lewis received a degree in range management from Washington State University in 1962 and began his government career with the U.S. Forest Service in Elko, Nev., in 1963. He transferred to the BLM that same year and worked in Baker, Ore., as a range conservationist. In 1970 he moved to Wyoming where he assumed an area manager's position in the Plinville District.

The FIAA loan is repayable over 40 years at 5 per cent interest.

Manager named

SHOSHONE — Jim Lewis has been named Wood River Area Manager for the Shoshone District, Bureau of Land Management.

Lewis replaces Larry Bardisely who transferred to Salmon last winter.

Lewis received a degree in range management from Washington State University in 1962 and began his government career with the U.S. Forest Service in Elko, Nev., in 1963. He transferred to the BLM that same year and worked in Baker, Ore., as a range conservationist. In 1970 he moved to Wyoming where he assumed an area manager's position in the Plinville District.

The two men disappeared the afternoon of April 23 when the 10-foot riverboat flotilla was piloted capsized in the trencher stretch of river.

They had been on a trip to pickup six persons who had hiked through part of Hells Canyon and were returning when the boat struck a rock and sank. The six, who were wearing life preservers, were later rescued.

Burley man elected

BOISE — James H. Roper, Burley, is one of four area vice presidents elected by the Idaho State Chamber of Commerce.

J. Grant Blackmore, Pocatello, has been elected to a second term as president of the group.

Other area vice presidents include C. Patrick King, Coeur d'Alene; S. A. Grayson, Idaho Falls; and Russell H. Crouse, Soda

Springs. C. F. Hall, Boise, was re-elected treasurer.

Search continues

LEWISTON — Idaho (UPI) — Only private boats were involved

Thursday in the search for two men missing in the Snake River about 50 miles south of here since April 23.

The Nez Perce County Sheriff's Office said only two members of the volunteer county sheriff's patrol were searching for

former state legislative leader Edward V. Williams, 44, and his cousin, Jack Bowman, 44.

The two men disappeared the afternoon of April 23 when the

10-foot riverboat flotilla was piloted capsized in the trencher stretch of river.

Blaine aides pledge funds

By TERRY CAMPBELL
Times-News writer

HAILEY — The Blaine County Commissioners and Hailey city officials have each pledged an additional \$3,000 to cover increased costs for the new National Guard Armory.

The two groups issued certificates of availability of funds Wednesday afternoon after a joint meeting with LTC William J. Orton, adjutant general's office, Boise, director of facilities for the Idaho National Guard.

LTC Orton said the apparent low bid, submitted by Ormond Construction Co., Idaho Falls, had exceeded original cost estimates by about \$50,000.

Facility costs are shared on the rough basis of 76 per cent federal participation, 15 per cent state; five per cent county; and five per cent city participation, LTC Orton said.

Original estimates projected construction costs as about \$168,000, LTC Orton said. Ormond Construction's bid was \$225,995.

Factors contributing to the cost over-run, LTC Orton said, included:

The adoption of a city ordinance after planning for the new facility was initiated in August, 1971, which required a 100 pound dead-

lead foot show load. LTC Orton said converting the planned 40 pound show load to meet the ordinance requirement added \$9,000 to the project.

The institution of a requirement, resulting in an additional \$15,000 cost, that union labor living more than 50 miles away from the union hiring hall (Twin Falls) be paid \$8 per day per man.

An about 11 per cent increase in cost of materials.

LTC Orton said he will also seek additional state and federal funds to cover the bid price.

Under original estimates, he said, participation was set as follows: Federal funds \$124,140; state, about \$31,000; and county-city \$10,677.

The new cost share schedule, he said, would be federal, \$164,000; state, \$42,394; and county-city, \$23,940.

The armory site is located between Third and Fourth Avenues, Hailey, off Maple Street. It will serve the Blaine County unit — Detachment 1, Troop F, Second Squadron, 116 Armored Cavalry.

The bid opening, with five construction companies participating, was conducted April 26 in Hailey.

Cleanup campaign set Saturday in TF County

TWIN FALLS — Several hundred volunteer "volunteers" "attacked" by the teams of "trash collectors" Saturday morning equipment will be furnished by the county by such groups as the U.S. Army Reserves, canal company, highway districts and the city of Twin Falls.

Individuals and many organizations will be participating in the third annual Johnny Horizon cleanup campaign which is expected to leave the county a cleaner, more beautiful spot by the conclusion of the day.

William L. (Bill) Chancey, county commission chairman, who heads the program, said

Commissioners Merl Lear, Conrad Filer, and Bill Wiseman, Hansen, will work as coordinators in their parts of the county.

Bureau of Land Management officials, co-sponsoring the event with the county, will assist with communications and direct trucks to the trash pick-up areas.

Chancey said he has been advised other counties such as Jerome and Cassia will be conducting similar one-day programs Saturday to expand the cleanup area. Several tons of litter will be hauled to sanitary landfills in the county during the day and special efforts will be made to dispose of large items or to collect them for later removal.

Meeting places include the old hospital building grounds for all Twin Falls teams and individuals; the Kimberly Advertiser building in Kimberly; the city park in Buhl; Daws's store in Hansen; the LDS Church in Murtaugh and the high school in Castleford.

Commissioners Merl Lear, Conrad Filer, and Bill Wiseman, Hansen, will work as

coordinators in their parts of the county.

Controlling mites problem in spring

JEROME — Jerome County Extension Agent Wilmer Priest has released information on control of clover mites.

"Each spring we have trouble with clover and spider mites moving into homes. These insects are tiny, straw-colored, lace-like mites which are smaller than a pin head. They work into the house around doors, windows, and vent openings. Usually they are first noticed collecting in sinks and similar hard surfaces," Priest said.

He said the insects live and feed on grass and shrubs. "During the early spring the ground is cold and they crawl up the sides of buildings to get near the sun. While on the building they penetrate any opening they find and wind up in the house," Priest said.

He said if mites are in the house a vacuum sweeper can be used to collect them from the walls, floors and curtains.

"This will prevent the red marks you create when you smash them. In real troublesome situations, a spray of Malathion or Diazinon will give temporary relief," Priest said.

Knicks drop LA 99-95 to even series at game each

INGLEWOOD, Calif. (UPI) — Bill Bradley scored 10 of New York's first 14 points in the final period and finished with 26 Thursday night as the Knicks, demonstrating their league-leading defense, beat the Los Angeles Lakers 99-95 to even their NBA championship series at 1-1.

The 6-foot-5 Bradley, who averaged only 12.1 points in the Knicks' previous playoff series with Baltimore and Boston, hit four baskets and a pair of free

throws to put New York on top, 90-80, with 5:39 remaining. Los Angeles cut the Knicks' lead to three at 98-95 with 26 seconds left but Jim McMillian missed two free throws in a bonus situation on the tail end of a possible three-point play.

The teams now move to New York for the third and fourth games Sunday afternoon and Tuesday night. They return here for a fifth game next Thursday night.

Benten 115-112 here Tuesday

night, the Knicks added a free throw by Dave DeBusschere with 10 seconds to go and McMillian and Jerry West each missed last seconds shot by the Lakers.

Walt Frazier, held to 12 points in the series opener, came through with 20 points while Phil Jackson came off the bench to add 17 for the winners. For the Lakers, who had a home playoff winning streak going back to last season snapped at 10, West and

McMillian led the way with 32 and 26 points respectively.

A. 12-12

Chicago (UPI) — The

Chicago Black Hawks scored

three power play goals, twice

while short handed, in the

opening 22 minutes Thursday

night, but had to stand off a

three-goal-short-period rally by the Montreal Canadiens to

preserve a 7-4 victory in their

Stanley Cup hockey game.

The win cut the Canadiens'

lead in games in the best-of-

seven final series to 2-1 with

the fourth contest slated in the

Chicago rink Sunday afternoon

for national television.

The Canadiens, trying to win the Cup for the 16th time,

apparently were out of contention when the Hawks opened up

with a four-point lead in the

first period and rookie John

Marks tipped one shot from the

blue line by rookie Len Frue on

a power play at 9:08 of the

second period.

But then the vaunted Canadiens' offense began to click. Frank Mahovlich scored for the fifth straight game on a five-foot rebound midway through the second period and Montreal exploded in the final session.

Yvan Cournoyer netted his

12th goal, two short of the

Stanley Cup playoffs record, on a short rebound at 1:20. At

7:16 Guy Lapointe powered an

eight-foot backhand past

Hawk goalie Tony Esposito and

only 10 later Jacques Lemaire flipped the puck over Esposito

from the edge of the crease after the Hawk goalie had

stopped close-in shots by

Cournoyer and Marc Tardif.

Montreal got off 33 shots

during the game while Chicago

fired 37 times at Ken Dryden in the Canadian cage.

GUARDING Earl Monroe brings out total concentration from Laker Jim McMillian during NBA playoff action Thursday night. New York won 99-95 to even the series at 1-1. (UPI telephoto)

Hill shoots five-under par 67 for first-round Houston lead

HOUSTON (UPI) — Mike Hill, playing with all the patience he could muster, fired a five-under-par 67 over the treacherous greens of the Quail Valley Golf Club Thursday to take the first round lead in the \$205,000 Houston Open.

Hill, playing his best golf of the year, took a two-stroke lead over amateur sensation Ben Crenshaw and former U.S. amateur champion Steve Melnyk.

Dave Stockton and Butch Baird headed a group of five golfers who were tied for fourth at two-under 70.

Hill, who has not led since he won the Texas Open in San Antonio last November, had five birdies and no bogeys. He two-putted from 50 feet on the par-5 first hole, and made 15-foot birdie putts on Nos. 3 and 15, sank a 22-footer on No. 12 and two-putted from 20 feet on No. 10, also a par-5.

Hill, 34, who has earned only \$15,000 this year, said the key to his round was making the short putts on the spotty greens on the 6,000-yard, par-72 Quail Valley course.

"I made all my two, three and five-putters," Hill said. "It's treacherous, really. You have to lag the ball. I was lucky."

"I didn't feel confident making it from two feet. I couldn't believe it, that I didn't miss a three-four footer."

"This guy that does not get in front there when he three-putts is going to be all right. If he lets it get under his skin he is going to shoot a good (high) number."

The greens at Quail Valley were reworked last winter and the grass did not grow back quickly because of three snows and 27 days of rain during the winter.

Hill is the younger brother of often stormy Dave Hill, who shot a 70, Thursday, and withdrew from the tournament. "He's already gone," Mike

said. "Patience is not my long suit, but my patience is longer than Dave's."

Only 17 of the field of 144 fired sub-par rounds. The others tied at 70 were Dale Brown, George Johnson and Billy Ziobro.

Gene Littler, Lanny Wadkins and Al Geiberger led a group of

none golfers at 71. Wadkins is the tour's most recent winner, having captured last week's Byron Nelson Golf Classic in Dallas.

None of golf's top four

name players, Jack Nicklaus, Arnold Palmer, Lee Trevino and Gary Player are competing here.

The slow-and-fast pitch softball umpires clinic will be held at 1 p.m. Sunday, not Saturday originally proposed, says Chet Browning, district commissioner.

In addition, Browning announced the second meeting for teams and individuals interested in the women's slowpitch league will be held at 7:30 p.m. Tuesday at city hall.

The Commission took this action because after a period of relatively stable harvest of deer and elk and a near record statewide harvest of deer in 1970, it dropped in 1971 to the lowest level in ten years. This was followed in 1972 with still a further statewide reduction in spite of the fact several individual units held stable or showed an increase harvest. Part of the 1972 harvest drop can be attributed to shortened

The Idaho Fish and Game Department will hold a public meeting on Tuesday, May 8, at 7:30 p.m. in the Holiday Inn, Twin Falls, to consider regulations for the forthcoming big-game seasons. The suggested outline for season lengths, number of permits in controlled hunts, etc., will be explained by Dale Turnipseed, Regional Game Manager, and the public will have the opportunity to comment on these proposals.

The Fish and Game Commission announced its intentions two months prior to making a final decision which is consistent with the throughout the State prior to major regulatory decision making. The purpose of the meetings is to gain input from the sportsmen and other interest groups, as well as the department before acting.

To clarify exactly what the Commission's proposal is, the following was excerpted from their minutes of March 16:

"The motion passed unanimously that the following statement concerning deer and elk seasons be adopted:

"The Commission feels that the following proposals of the Director relative to 1973 deer and elk seasons have merit.

"They should be given wide distribution to the public in order that meaningful input may be received at the public hearings which will be held in late April and early May. The proposals are:

A. No "Extra" deer tags.

B. No units with seasons longer than 1972.

C. Units opening on September 15 no longer than 65 days, closing on November 10 or earlier. Units now opening on September 15 no longer than 30 days, closing November 10 or earlier.

D. Units now opening on October 6 no longer than 37 days, closing November 25 or earlier.

E. Units opening on October 20 no longer than 37 days, closing November 25 or earlier.

F. Units opening on October 27 no longer than 30 days, closing November 25 or earlier.

G. Deer and elk seasons not within these frameworks will be handled by controlled hunts only.

H. Further reduction of the number of opening dates will be a major goal for the 1974 big game seasons."

The Commission took this action because after a period of relatively stable harvest of deer and elk and a near record statewide harvest of deer in 1970, it dropped in 1971 to the lowest level in ten years. This was followed in 1972 with still a further statewide reduction in spite of the fact several individual units held stable or showed an increase harvest. Friday, May 4, 1973 Times-News, Twin Falls, Idaho 15

BOSTON (UPI) — Orlando Cepeda, obtained by the Boston Red Sox during the off-season, leads the new designated hitter statistic according to figures released by the American League office today.

Cepeda, running on two-wounded knees, has recuperated from an 0-for-41 start to pace the designated hitters with 25 hits in 72 at-bats, good for a .337 average.

Cepeda has six home runs, one a grand slam, and 17 runs batted in.

The designated hitters overall have compiled a .236 average, driven in 11 runs and have hit 22 home runs in 405 at-bats.

The Fish and Game Commission announced its intentions two months prior to making a final decision which is consistent with the throughout the State prior to major regulatory decision making. The purpose of the meetings is to gain input from the sportsmen and other interest groups, as well as the department before acting.

There are many other factors which affect big game herds and these, too, must be taken into consideration. There are too many instances where management programs based upon harvest alone have not produced the desired results. Currently, the Fish and Game Department is instituting comprehensive management plans and programs for big game management. There is an urgent necessity for the completion of meaningful big game research to fully implement the planning. The department is well into this operational phase now. And of great importance in the need for close cooperation with the public land management agencies in land use planning.

Impecunious withdrawn on eve of Kentucky Derby

LOUISVILLE, Ky. (UPI) — They had the heartache bravely and they plumped to watch Secretariat, Sham and 11 other horses clash Saturday in the 99th Kentucky Derby, but all the fun was gone today for the Finkborgs and the Handys.

It all evaporated with a puff when their horse, Impecunious, turned up lame only a few short hours before he was to be

entered Thursday in the first of the "Triple Crown classics."

It wasn't much of an injury,

just a little temporary tender-

ness in an old cut. Many horses

have gone to the post in the

Kentucky Derby in far worse

sights.

"The vet said we could get

him to the race if we wanted

to," said Robert Finkborg who

paid \$16,000 for the colt at the

"I felt so badly for him. He

Keeneland summer sale three years ago. "But you don't run in the Derby unless the horse is at his best. There is a long summer ahead and the Preakness is only three weeks off," he added philosophically.

His wife, Robbie, was almost

in tears of George Handy, their

trainer, inspected the injured

foot.

"I felt so badly for him. He

has been training horses for 26 years and he never got this close to the Derby before. He worked so hard getting this colt ready. 'Impecunious' was a longshot, we know, but he had beaten so many of the others already when he won the Arkansas Derby, and finished third in the Blue Grass Stakes," she said.

It was just as tough, maybe tougher for Lorrie Handy, the trainer's wife. Before their three children were born, she used to help her husband around the barn. This week she was back on the job. The children had been left home but were to come to Louisville today.

"I didn't think I would remember, but I guess you don't forget how to muck out stalls and things like that. I really was having fun and everybody has been so nice to us here at Churchill Downs, at the hotel where we're staying, everywhere. When I told the maid and the girl that brings us coffee Thursday morning, we all sat down on the bed and cried," she said.

The Handys had stayed at the barn until 3 o'clock in the morning, soaking the colt's sore foot. Then Handy decided that the foot, injured in the Blue Grass Stakes a week ago, just wouldn't come around and the sad news was spread.

"And it isn't that bad. The cut was coming along so nicely. It's just the timing that was bad. If we had a little more time, things would be different," said Mrs. Finkborg.

There was nothing wrong

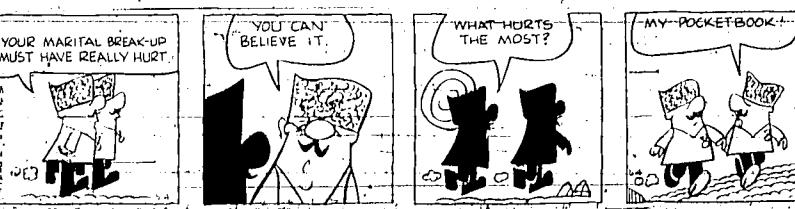

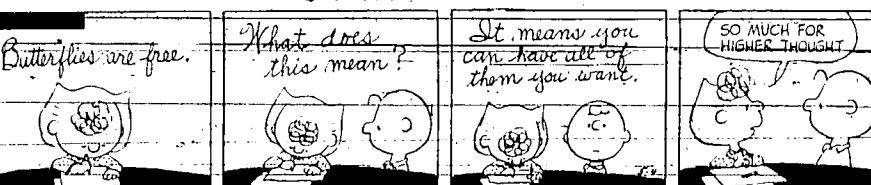

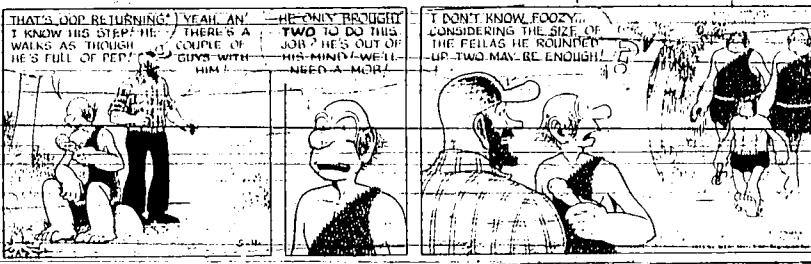

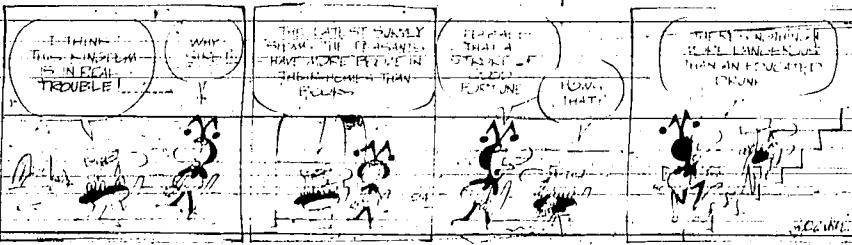

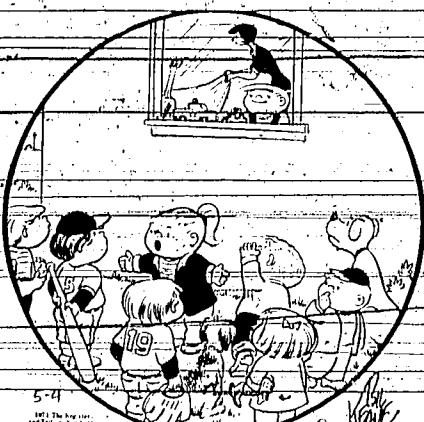

with Secretariat, the even-money favorite, or with Sham, the 7-to-2 second choice, who were pronounced fit and ready to go by trainers Lucien Laurin and Franklin Martini.

Angie Tigh, "My" Gallant, Restless Jet, Warbucks, Navajo, Twice a Prince, Our Native, Foreign, Gold Bag and Sheeky Greene also were in top shape for the \$100,000-to-the-winner

**Cardinals down
San Diego 3-1**

SAN DIEGO (UPI) — Right-hander Reggie Cleveland spaced nine hits and struck out eight Thursday night to gain his first win of the year as the St. Louis Cardinals set down the San Diego Padres 4-1.

St. Louis 4 San Diego 1

What's What

L. M. Boyd

What possible events in your life are apt to shake you up most? Name 10. That's what the pollsters said to a sampling of reasoned citizens. Their replies indicated the usual occurrence of all was generally regarded to be the death of a spouse. Divorce came in second. Marital separation, third.

Am now advised that nobody, but nobody has seen a camel in the Arizona Desert since the turn of the century, contrary to the report of a Yuma customer. The camel Topay, last survivor of the U.S. Army Camel Corps, reportedly died in the Griffith Park Zoo in Los Angeles on April 27, 1934.

What a homing pigeon lands on a ship at sea, it usually gets so hopelessly confused it can't possibly find its way home, not until it's taken to a port it recognizes, therefrom to set off again.

THE HARD FACTS

As for the cockroach's sense of smell, it's in its legs. Were you aware that country's shoreline was shrinking inward by half an inch every 50 years? A third of all divorce suits filed nationwide are dropped before the court hearings. A felino fancier cautions you ought to load that cat of yours a little safer now and then for the sake of its health. Murder is regarded as a lesser sin than suicide in the book of Koran.

QUERIES FROM CLIENTS

Q Who was the first American president to grow a beard?
A None other than Abu Lincoln.
Q What's the natural color of nylon?
A Translucent ivory.
Q Which is more fattening, a one-cup mound of spaghetti or a six-ounce steak?
A The steak. Figure 200 calories for the spaghetti, about 500 for the meat.

Nobody's ever proved that a clean man is healthier than a dirty man. That is the remarkable claim of a faculty member with the University of Minnesota Medical School.

If you want to develop those manly shoulders, young fellow, try this isometric trick. Standing in a doorway, press each hand chest high against the jamb as though you were trying to widen said doorway, holding peak tension for eight seconds at a time. Eventually, this exercise, it's said, will make you look "gorgeous" in a T-shirt.

MAJOR HOOPLES

ON SECOND THOUGHTS, I DON'T THINK CARLIE SHOULD GET THE HONOR OF A NETWORK INTERVIEW.

MEANS LET BUSTER DO IT.

BY L. M. BOYD

Bickel sees 2 groups

TWIN FALLS — Bickel school probably will continue with two parent-teacher groups next year.

Clarence Parker, school principal, said Wednesday that newly elected officers of the PTA are hoping to set up a meeting with their counterparts in the PTO which was formed this past year.

He said he hoped that both groups could eventually get back together, but "it will have to be worked out," adding he is right in the middle and there are some real fine people in both groups.

The PTO was organized at Bickel last year and has already elected officers for next year, with Mrs. Tom Lane as new president.

The school's PTA unit membership voted to retain its charter and re-elected officers this week.

They include Mrs. Devern Fuller, president; Tom Davis, vice president; Mrs. Ken Walker, secretary, and Mrs. Eugene Baxter, treasurer.

Mrs. Ernest Romans will serve as council representative, and Mrs. Roy Slatton, legislative representative.

Mrs. Glen Griffin reported on plans for the District 4 PTA spring conference at the Bickel PTA meeting.

Refreshments were served by the executive committee with Mrs. Frank Garrison in charge.

Twin Falls Highway District plans 1973 construction program

TWIN FALLS—County-road construction projects in the Twin Falls Highway District will represent a \$194,000 expenditure in the current construction season.

Keith Andersen, district engineer, said the district's construction program includes a large fill and installation of a steel culvert to carry Rock Creek in the vicinity of Independent-Mot. Co. to take care of the largest gap in the cross-county road running from the balanced Rock area in the west end to Kimberly in the east end.

This is a secondary federal aid project and a part of the cross-county highway will be linking sections of the road already completed through the cooperation of the Twin Falls, Buhl and Filer highway districts.

Some of the cross-county route is still in need of improvement—but completion of the fill and culvert for Rock Creek southeast of Twin Falls will complete a through route.

The district's share in the project for which a contract is now ready to be let, is about \$30,000. Total cost is about \$90,000, three-quarters coming from Transportation Department funds.

A sizable amount of the available money is going to provide roads needed to serve new land areas now coming under development.

Andersen said the district has provided this year for 2.5 miles of reconstruction on the Jarbridge road, west of Rogerson. Ivan Wynn is the contractor for this project with the cost between \$36,000 and \$37,000. Work involves widening of the shoulders and laying a new mat over the full width of the roadway. This is one of the projects, Andersen said, which has been pending for several years.

Another 2.5 mile section of county road north of Roseworth from the end of the present oil to the Lilly grade entrance is slated for realignment with a new grade

and gravel base but paving possibly delayed until next year.

District crews and equipment will handle this project, expected to cost between \$30,000 and \$35,000. Because of the remote location and loose gravel, costs are relatively high, Andersen said.

A late addition to the district construction program this year involves two miles from South Blue Lagoon Boulevard to the newly acquired county land fill.

In connection with the new land fill, formerly owned by the city of Twin Falls, the county will have to improve four miles of road from U.S. Highway 93 to the southwest, giving residents of that part of the county a better road to the landfill.

This year's program will cost about \$45,000 with the additional improvements scheduled next year as funds are available.

In the new Bell Rapids project area in the west end of the county, Andersen said the district plans on paving five miles of road running from the old Owsley bridge to the east edge of the farm project.

This has steep grades and is difficult to maintain as a graded road. Surface will cut future maintenance costs, Andersen said. Cost of this project is about \$35,000.

Other improvement projects include 1.2 miles of the grade to the Magic Valley development. The project will continue a 3/4 of a mile given surface treatment last year. The road runs from U.S. Highway 30 north of Barbary Hot Springs. Cost on this small project for the surface treatment will be about \$6,500.

Two bridges will be built in the Shoshone Basin area, one providing a better crossing of Shoshone Creek.

Maintenance this year, costing a total of \$166,000, will include a number of patching projects, many of these on roads which should be resurfaced when funds are

available. The heavily used Rock Creek Canyon road which is badly broken and filled with chuckholes from the community of Rock Creek to the later construction sections will be patched as a temporary measure until it can be resurfaced.

Andersen said this was one project which was postponed when funds would not stretch over all proposed projects.

Several roads in the county are beyond basic patching and will require extensive maintenance work until new services can be applied, he said.

The district also plans to do about 30 miles of seal coating in various locations, depending on the most serious needs.

The district's budget is broken into three portions: \$194,000 for construction; \$40,000 for bridges and \$166,000 for maintenance. The highway board approves the budget and projects which are recommended by Andersen and Floyd Dayley, district manager.

To provide for the road programs the levy for 1972 was 47 cents per \$100 assessed valuation. Maximum levy allowed would be \$1.42 per \$100 of assessed valuation.

Andersen said about half of the highway district's revenue comes from the property tax levy. The other half comes from the "highway users" fund which is revenue from automobile licenses, gasoline tax, use fees on trucks and other fuel tax.

Of the half coming from highway users fee, about 46 per cent is from motor vehicle registration and 15 per cent is from other sources such as fuel tax and based on the miles of improved road in the district.

The remaining 10 per cent comes from an equal division of remaining revenue in the highway users fund, among all districts.

Andersen said he and other district officials are working with joint planning agencies such as the County Transportation Planning

Committee to develop a master plan for road improvement and construction in the district.

Andersen said planning has become an important part of the highway program with demands for more and better roads to serve new farm developments, recreation sites and subdivisions developing in rural areas.

Andersen said with new farm developments, like a large share of the district's revenue, roads must be provided so the land to be developed can be accessible.

In addition, he said, the farmers are proving up on their land as rapidly as possible so it can be placed on tax rolls and begin returning revenue to the district.

"In all fairness," Andersen said, "we should point out between 75 and 80 per cent of the new land to which we are building and maintaining roads has been patented and is now on the tax rolls."

City officials in Twin Falls have promoted such joint

He said the district tries to add some road improvements each year for the new farm development areas.

Many city residents argue they pay property tax and highway user taxes to the rural highway districts along with farm residents while all highway district roads, except for an occasional recreation access, are built to benefit farmers.

To equalize this last year the state legislature gave cities a larger share of gasoline taxes. Andersen estimated this amounted to about \$30,000 to \$40,000 although it is difficult to figure because of the formula used by the state.

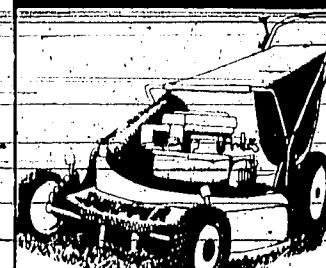

The county works with the city on maintaining and building roads which border city boundaries and these roads are then turned over to the cities for maintenance, Andersen said.

City officials in Twin Falls have promoted such joint

projects, pointing out city roads and rural residents use all improvements of mutual benefit.

Residents also drive on rural city streets, making mutual benefit.

SNAPPER V-21 or 18 mower

Where would you put the grass catcher...?

If you were to design a mower, Between the handles, of course.

The Snapper V-21 or 18 lawn mowers do have the bag between the handles and it is 3 times larger. It bags your grass & vacuums your lawn while you mow. It is a many talented rotary that does much more than mow. It sucks up leaves and bugs them; it blows off walks and driveways. It cuts, trims, both sides. See them now!

Senate hearings on Rainbow Bridge delayed

WASHINGTON (UPI) — Sen. Frank Church, D-Idaho, says Senate hearings on legislation to allow the waters of Lake Powell to back up under Rainbow Bridge will probably be delayed until a federal appeals court rules on the matter.

Church, chairman of the Senate irrigation and reclamation subcommittee, told Rep. Wayne Owens, D-Utah, the courts should be allowed to complete their work before Congress acts.

The 10th Circuit Court of Appeals in Denver Tuesday stayed an order issued by U.S. District Judge Willis W. Ritter in Salt Lake City prohibiting the Bureau of Reclamation from filling the lake.

Ritter issued an order in early March in a suit brought by environmentalists seeking to keep the waters of Lake Powell out of the Rainbow Bridge—National Monument. They cited a provision of the Colorado River Act which prohibits water from entering any national monument.

Ritter based his order on that decision.

The appeals court, however, stayed the order

pending a further hearing of the case May 24. The Bureau of Reclamation immediately announced it would begin filling the lake under the natural sandstone bridge.

Sen. Frank E. Moss, D-Utah, and Rep. Gunn McLowry, D-Utah, both have introduced legislation changing the language of the Colorado River Act to allow the water inside the boundaries of the national monument.

Owens disagrees with the legislation and had asked for a speedy hearing before the Senate subcommittee.

He said Wednesday he thought the appeals court intended to allow the lake to be filled was wrong.

"I am not distressed by the decision," Owens said, "but I think it was clearly the intent of Congress at the Colorado River Storage Project Act to prevent water from entering the monument."

However, the three other members of Utah's congressional delegation were pleased with the decision.
